

Illustrious Mr. President:

I confirm my direct knowledge that activities undertaken here in Italy have had a negative impact for the President of the U.S. regarding the manipulation of the electoral vote of November 3rd and 4th, 2020.

I confirm that Leonardo SpA at its Pesara facility, using advanced military encryption capabilities, changed the US election result from President Trump to Joe Biden. The data switch was conducted by the head of the IT department of Leonardo SpA in coordination with senior US intelligence officials (CIA), three of whom work at the US Embassy in Via Veneto in Rome. A senior US Embassy Official held regular meetings with General Claudio Graziano, EU military commander, and Ignazio Moncada, president of FATA SpA, a company owned by Leonardo SpA, the largest aerospace trust company based in Italy with its American counterpart, Leonardo DRS.

On December 3rd, the head of the IT department was arrested in Naples, where he remains. We had direct and continuous contact within the organization with the IT manager who agreed to testify to the US authorities concerning what happened to the electoral data — how they were changed at the Pessara / Fucino facilities, were loaded with information technology on military satellites, and what data is contained in an electronic key to demonstrate the changing of the data from President Trump who was clearly the winner to Joe Biden on November 4th, 2020.

Our associates in the conservative part of the Italian secret services have been working since the beginning of November, 2020, to ensure that the truth is known and that the American people realize the result voted for: the re-election of President Trump.

Rome, December 27th, 2020.

There have been allegations of signature match anomalies in Fulton county, Ga. Can you get Jeff Clark to engage on this issue immediately to determine if there is any truth to this allegation

New Mexico List of Complaints

1. Poll Challengers removed from the Absentee Ballot Certification Process
 - a. RPNM notified the Secretary of State in timely fashion and she refused to allow challengers access to the process
 - b. RPNM took this complaint to the NM Supreme Court (4 Democrats, 1 Republican) in timely fashion; they refused to hear the case.
 - c. Local races were lost by a few votes in several counties where the Party was not present to verify the Absentee Ballots.
2. Poll Challengers were unable to adequately do their job
 - a. Some counties forced them away from the ballot counting process, sometimes as much as 50 feet away, making it impossible to verify correct procedures were used.
 - b. Republican Poll Challengers were met with outright hostility by some county clerks.
3. Dominion Machines are the only machines used in New Mexico
 - a. Many Anomalies were encountered
 - i. Vote dumps in the middle of the night when no counting was taking place
 - ii. In each instance of vote dump, the Democrat candidate was the beneficiary.
 - b. Three automatic recounts took place
 - i. Republican challengers were met with hostility and attempts to keep them out of the recount
 - ii. Dominion Representatives were allowed into each recount.
 - iii. Our data team had noticed a pattern in all the Dominion machines where vote totals below 120 votes had one pattern but when the total votes in the machine exceeded that number, the voting pattern was significantly different.
 - iv. In order to test their theory, RPNM instructed our challengers to request that the 100 sample ballots be fed thru the machine a second time.
 1. The Dominion Representatives objected strenuously
 2. The theory was never tested because the County Clerks in each instance gave in to the pressure from the Dominion Representatives.
 - c. Our Data Team has reviewed voter files back to 1992
 - i. They have identified anomalies that have become increasingly sophisticated through the years
 - ii. Recent data patterns suggest between 10-20% vote shifts in recent years, including the 2020 Presidential Election.
4. Absentee ballot requests
 - a. We have documented cases of absentee ballots being requested by someone other than the voter, the signature not the same name as the voter and live absentee ballots were mailed.
5. Other Irregularities
 - a. Multiple documented cases of dead people voting
 - b. Multiple cases of persons who moved out of the state years ago receiving ballots.
6. The Trump Legal team
 - a. Has filed a lawsuit against the SOS

- b. Has filed two IPRA requests to the SOS
 - i. The SOS responded that they would provide the information by 30 December, 2020
 - ii. On 31 December, she notified the Trump team she would not provide the information until January 14, 2021.
- 7. Notarized Affidavits
 - a. RPNM has in hand many signed and notarized affidavits of problems individual voters encountered.
 - b.

Yes. After this message, I was asked to have FBI meet with Brad Johnson, and I responded that Johnson could call or walk into FBI's Washington Field Office with any evidence he purports to have. On a follow up call, I learned that Johnson is working with Rudy Giuliani, who regarded my comments as "an insult". Asked if I would reconsider, I flatly refused, said I would not be giving any special treatment to Giuliani or any of his "witnesses", and re-affirmed yet again that I will not talk to Giuliani about any of this.
